Delta Systems contracted with Panzica Construction Company to expand their current 48,000 square-foot lawn and marine switch and electronics plant to a 138,000 square-foot facility. The plant will add 78,000 square-feet of manufacturing space, which will include Dyno testing, electrical assembly and manufacturing engineering laboratories, 12,000 square-feet of new office space as well as completely renovating 16,000 square-feet of existing office space.

Panzica is also assisting in the integration and relocation of equipment and utilities within the facility.
